

BRAND AWEARNESS

Our Process

Our Process

Campaign:

The assurance of the success Of our customers' campaigns reaching the targeted audience is our priority. We carefully and thoroughly work hand in hand with our costumers to guarantee a job well done. We are involved from start to finish: from Content production to design even up to the branding process.

Operators:

*We have Partnered with all Mass transit Operators and the Union of tricycle Operation (UTO) in **Lagos State**. We also partner with Mini Bus Owners Associations (MBOA) and NURTW. Now we can run your campaign across every state in Nigeria.*

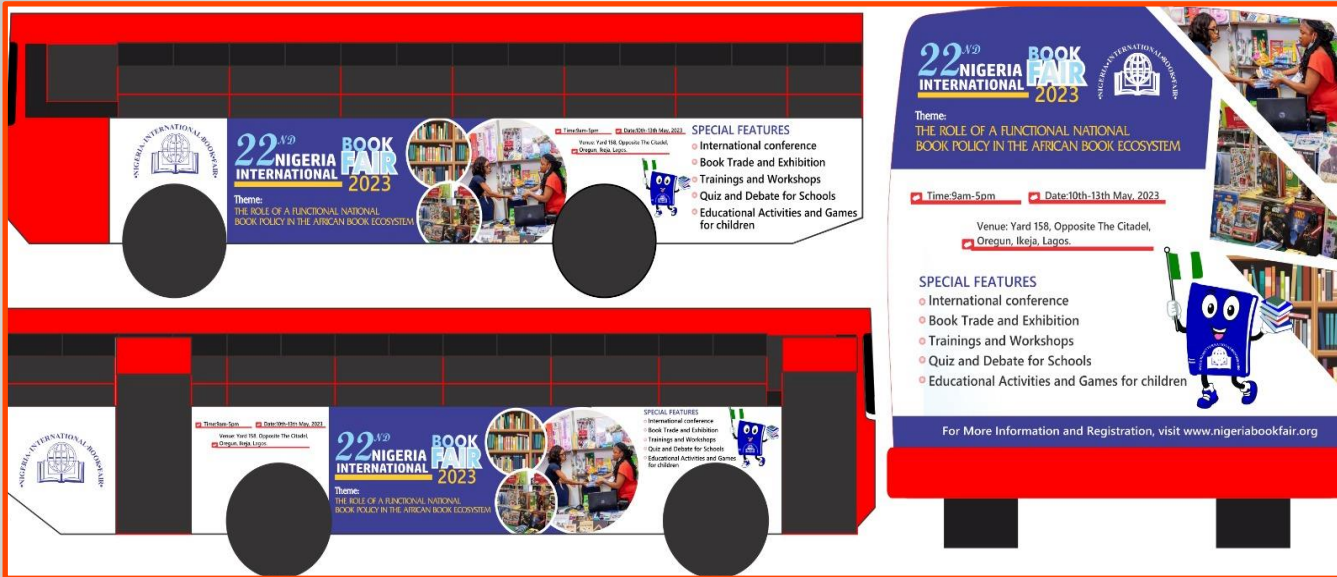

Route:

We know every route within or outside Lagos State. We will make sure you get healthy buses that suite every route.

***Monitoring:** We have our agent on the road monitoring the movement of every campaign running on our platform, this help us give timely and updated reports.*
